ORGANIZATION

OF THE

City Government, January 7, 1924.

The city government of Franklin was inaugurated Monday evening, January 7, 1924 at City Hall. Mayor Louis H. Douphinett was given the oath of office for a third time.

Previous to the inauguration exercises, the council of 1923 met in the city council room with Mayor Douphinett and Councilmen Riley Gerlach, Griffin, Hebert, Woodman and Thompson present.

Records of the December sessions were read and approved. The resignation of Harry P. Swett as a member of the board of library trustees was read and accepted.

On motion of Councilman Lagace it was voted to pay half of the bill for concreting the highway to the Franklin hospital. The bill is \$329. Councilman Woodman cleared up the situation in regard to the report that bills had been or were to be presented the injured firemen for treatment received at the hospital. He said that the superintendent of the hospital had informed him that no bills had been sent to these men or to their families and that none would be. Mayor Douphinett said that plans were under consideration for a benefit for the firemen at the Pastime Theatre.

The council of 1923 then adjourned to the opera house. Councilmen Riley, Douphinett and Woodman whose terms expired with the council of 1923 retired.

City Clerk Goss administered the oath of office to Mayor Louis H. Douphinett and to Councilmen Thomas L. Riley of Ward one, Albert J. Garneau of Ward two and Joseph W. Sinclair of Ward three. Prayer was offered by Rev. C. B. Hansen, pastor of the Methodist Episcopal church. Mayor Douphinett then read his inaugural address.

My Fellow Citizens: An occasion like this should bring pleasure to the heart. I have served as mayor of our city for two years, and it is for you to say whether my work has been successful or not. All I can say is that I did my very best, and if there were some things I did not do well it was because I could not, and not because I did not try.

It has been a great pleasure for me to work with so many thoughtful men and women, as I have been associated with during these two years. Our city is blessed with a large uumber of men and women who devote their time to advancing the general interest of all. I want to thank each and every one of you for every kind word and deed you have extended to me during these past two years.

I shall not burden you with any long speech, but wish to call your attention to some of the improvements made during my administration. The opera house has been repaired. Two years ago when I took this office, the opera house was badly in need of repairs. In some places the plaster was off in spaces four feet square.

Now the streets: The annual report will show that there have been a great many improvements made. Memorial, Franklin, Orchard, Main street and Aiken avenue have all been fixed up. And here is a good place to call the attention of the citizens to the need of a snow plow. I recommend the Sargent plow and Holt tractor so that our streets can be kept clear for the automobiles as well as the teams. I recommend that we keep the road plowed from the Tilton line to the Boscawen line. I also favor keeping the hills plowed so that they may be accessible in case of fire. This tractor can also be run with our road machine on country roads in the summer time. I recommend that two or three more streets be renewed this year. We have a few small plank bridges that ought to be replaced with cement bridges. I recommend that the Sanborn bridge be renewed.

I call the citizens' attention to the tearing down of the old building at B paper mill and the improvement of that corner.

As to the schools. As you all know the Daniell estate has been donated to us. We have remodeled one of the buildings on this estate into an eight room Junior High School. We must realize that the schools from now on must cost more than in previous years if we keep up with other cities. In order to have good, efficient teachers we must pay them good salaries. If we are to continue the Junior High School, we must raise \$15,000 more than in previous years. We have been somewhat handicapped in building the school but hope to have it finished and ready for use in about four weeks.

Sewers: The city is probably as well drained as any city in New Hampshire.

Lights: The streets are as well lighted as can be.

Fire: The fire department is in pretty good shape. We cannot expect to have a department like those of the bigger cities. However, there should be some changes made this year which will be up to the committee.

Police: I recommend that the offices of chief of police and tax collector be kept separate and distinct and not combined. I believe that the duties of each office, being absolutely dissimilar, each one should be conducted by a different official. I believe that it is the duty of the chief of police to be out on the street more, protecting the school children and attending to the duties of his office. When the chief of police has to attend to the tax collecting in addition to his police duties, he has not the time for many of these necessary things.

I expect that the committees appointed will do their best in every way.

CITY GOVERNMENT.

CITY COUNCIL.

Mayor.

Elected annually on the fourth Tuesday of November. Salary \$200 a year.

LOUIS H. DOUPHINETT.

Councilmen.

Elected by wards for three years. One member from each ward elected on the fourth Tuesday of November annually. No salary.

HIGHWAY DEPARTMENT.

HIGHWAY COMMISSIONER'S REPORT.

To the Mayor and City Council of Franklin:

The following is a report of the work done by or under the supervision of the Highway Department during the year 1924.

The usual road machine work was done on the outside roads and they were kept in as good condition as could be expected considering the long, dry season.

Necessary repairs have been made on all bridges.

Streets.

Oak street was dressed with stone and finished with an application of modified asphalt; 1,994 1-9 yards of

asphalt was laid at a cost of \$2,293.23.

Elkins street was graded, smoothed and treated with a coat of Tarvia B, and sand, and a section of the street 950 feet long and 25 feet in width was finished with an application of modified asphalt, 2,810 2-3 yards of asphalt, costing \$2,810.67. All driveways on both sides of the street were concreted.

The entire length of Bow street was harrowed, smoothed, rolled, and treated with a coat of Tarvia B

and sand.

Spring street was graded and about 400 feet in length was covered with water bound macadam. A section of the street at the east end, 110 feet long and 26 wide was bound with Tarvia X.

On Winnipesaukee street, a section 120 feet long and 26 feet wide, was covered with crushed stone and bound

with Tarvia X.

Central street from the covered bridge to Main street was covered with a two inch application of modified asphalt, a total of 1,258 yards, costing \$1,447.72.

Extensive repairs were made on Summit street, including the building of a wall 175 feet in length and seven feet high, beginning at Gilman street and running north.

Beginning at the residence of George G. Fowler and running north, the street was graded and covered with ashes for a distance of 500 feet and the roadway was made 30 feet wide.

Willow Hill Repairs.

(Not included in Highway appropriation).

Two thousand feet in length of water bound macadam was treated with Tarvia B and sand, and from Sanborn bridge east for a distance of about 400 feet, 30 feet in width, a coat of modified asphalt and sand was applied.

A total of 3,935 square yards of concrete gutters and driveways were laid on several streets, including 1,635 yards on Prospect street, covering the distance from Auburn street to Central street. The entire cost for the 3,935 yards was \$4,919.03.

Sidewalks.

Four thousand, three hundred and eighty-six and eighth-ninths square yards of new concrete sidewalk has been constructed at a cost of \$5,483.63, and 1,187 square yards have been recovered at a cost of \$1,009.12.

Sewers.

About 1,200 feet in length of new sewer was laid from Railroad street to View street.

State Aid Construction.

Work was continued on the new gravel road being constructed from the Daniel Webster Birthplace to South Main street. About 3,500 feet in length of the roadway has been finished, and 1,588 feet of railing has been erected and painted.

Trunk Line Maintenance.

About 8,100 feet in length of the Daniel Webster Highway between Franklin and Boscawen has been treated with a coat of Tarvia B and sand. On the

Andover road, for a distance of about three miles the roadway was harrowed, smoothed and treated with two-coats of Tarvia B and sand.

State Aid Maintenance.

On the road to Hill, for a distance of 5 2-5 miles, the roadway was harrowed, smoothed and treated with two coats of Tarvia B and sand.

Garbage Removal.

For a considerable period, all garbage has been taken to the Webster Lake dump, and by carefully covering all the refuse matter, objection to the use of this particular property for a dump has almost entirely ceased.

I desire to extend my thanks to all the members of the City Government who have aided me in my work

during the past year.

JAMES C. NOWELL, Commissioner,

FIRE DEPARTMENT.

ENGINEERS' REPORT.

The following report from December 31, 1923 to December 31, 1924 is submitted: The manual force consists of Chief Harry E. Colby and two assistants, John E. Cunningham and Almedos Rousseau. The combination chemical and pumper, 15 men, Edward Wheeler, captain. The Hook and Ladder Company, No. 1, 15 men, Albert Garneau, captain. Hose Company No. 1, South Main Street, 10 men, Alwin Dean, captain.

Location of Apparatus.

Hose Company, No. 1, South Main Street.

One 30-foot ladder. 500 feet $2\frac{1}{2}$ inch hose. One hand tub.

Prescott's Garage.

One automobile hose and chemical wagon, carrying eight pony fire extinguishers, 500 feet 2½-inch hose, boots, coats and hats, nozzles, axes, etc.

Carries three men besides driver, and nine men going to

brush fires.

One automobile combination, hose, chemical and hook and ladder truck, carrying 950 feet of 2½-inch hose, one 40 gallon chemical tank with 200 feet ¾-inch chemical hose, and all ladders formerly carried on Seagrave Hook and Ladder truck, also extinguishers with extra charges, hose pipes, axes, gates, relief valve, stops, spanners, wrenches, coats, hats, boots, and belts for 30 men. One cellar pipe, wire cutter, tin roof cutter, ropes, eight smoke protectors and one deluge set.

Central Fire Station.

One American LaFrance triple combination truck.

There is at the Central fire station, 1250 feet of 2½-inch hose in good condition, also 850 feet of leaky hose that could be used in case of a big fire.

Hose 3, Central Street, Opposite Paper Mill B.

One hand reel with pipes, wrenches, spanners and 400 feet $2\frac{1}{2}$ -inch hose.

Hose 4, Head of Elm Avenue.

One hand reel with pipes, wrenches, axes, spanners and 400 feet 2½-inch hose.

One two-wheeled truck equipped with one 31-foot roof ladder, one 28-foot, one 20-foot and one 15-foot ladder.

Hose 5, Pearl Street, Near Park Street.

One hand reel with pipes, wrenches, axes, spanners and 400 feet $2\frac{1}{2}$ -inch hose.

Hose 6, Sturtevant Street.

One hand reel with pipes, wrenches, axes, spanners and 400 feet 2½-inch hose.

There is also one 55-foot extension ladder at the city stable.

Pony extinguishers to be used by any person for fire purposes in the vicinity of the places of keeping are in the following places: City hall 4, Franklin passenger station 1.

Recommendations.

We would recommend the purchase of two fire alarm boxes and the purchase of 500 feet of hose. We would also recommend that the American LaFrance Pumping engine used at present by the city, be exchanged for a six cylinder pumper of the same manufacture, and that the contract with Prescott's Garage for the use of fire trucks, be renewed.

HARRY E. COLBY,
Chief Engineer,
ALMEDOS ROUSSEAU,
Assistant Engineer.
JOHN E. CUNNINGHAM,
Assistant Engineer and Clerk, Board of Engineers.

REPORT OF ENGINE NO. 1. F. F. D.

From January 1st to December 31st, 1924.

Number of bell alarms answered, 24. Number of still alarms answered, 7. Number of false alarms answered, 1. Number of miles traveled, 119.3. Hose laid, 7500 feet. Pumped at fires, 26 hours. Chemical used, 420 gallons.

CHARLES F. HAYDEN, Clerk.

HOOK AND LADDER, NO. 1.

From January 1st to December 31st, 1924.

Answered 11 bell alarms. Used 466 feet of ladders. Used 900 feet of hose.

FRANCIS T. DOUPHINETT, Clerk.

Regulations of the Franklin Fire Department.

Adopted December 20, 1909.

- Section 1. The fire department of the City of Franklin shall be composed of a chief engineer, first assistant engineer, second assistant engineer, and a superintendent of fire alarms, who shall each be appointed by the city council; combination chemical and pumper company to consist of fifteen men, one hose company to consist of ten men and one hook and ladder company to consist of fifteen men.
- Section 2. The chief engineer and two assistant engineers shall constitute a board of engineers and shall exercise the power of firewards.
- Section 3. The chief engineer and each assistant engineer shall hold his office and perform his duties until his successor takes his oath of office.
- Section 4. The City Council, for cause, after hearing, may remove from office the chief engineer or any assistant engineer.

Chief Engineer.

- Section 5. The chief engineer shall have sole command over all persons present at fires whether members of the fire department or not.
- Article 1. He shall direct all proper measures for extinguishing fires, protecting property, preserving order at fires, and enforcing laws, ordinances and regulations regarding fires.
- Article 2. He shall have charge of and examine into the condition of all fire apparatus, fire alarm system, houses and all fire department property and shall cause needed repairs to be made under the direction of the committee on fire department of the City Council.
- Article 3. He shall certify all pay rolls and bills against the department and shall be responsible for the care of all property connected with the fire department.
- Article 4. In the absence of the chief engineer the next engineer in rank, who may be present, shall have the power to perform the duties of the chief engineer.

Board of Engineers.

- Section 6. The board of engineers shall inspect and make themselves familiar with all shops, factories, hotels, tenement houses, public buildings, halls, churches and schoolhouses once a year, and study the location of all hydrants and generally inform themselves in all matters pertaining to their duties.
- Article 1. They shall have control of all persons appointed to serve in any company of the fire department and shall have power to direct and control the labor of all persons present at a fire.
- Article 2. They may from time to time make and enforce such regulations for the government of the department as they deem proper.
- Article 3. They may establish such regulations respecting public safety, kindling, guarding, safe keeping, prevention, and extinguishment of fires, and for the removal of combustibles from any place, and the keeping or storing of explosives, as they think expedient, which shall be signed by a major part of them, approved by the Council and recorded by the city clerk, and attested copies posted in two or more public places in the city thirty days before they shall take effect.
- (a) Penalties not exceeding ten dollars for each offense may be prescribed for breach of such regulations and such regulations shall remain in force until altered or annulled.
- Article 4. They shall examine the qualifications and fitness of all applicants for membership in the department and no person, whose application has not been approved by a majority of the board of engineers, shall become a member of the company.
- Article 5. At the first meeting in each year, after the qualification of the engineers, they shall proceed to elect, by a majority vote, a clerk of the board of engineers, a captain, a lieutenant and a clerk for each company, each of whom shall hold office until his successor is elected.

Article 6. Any member of any company may be dismissed from the department or from office in a company by two-thirds vote of the board present.

- Article 7. They shall in conjunction with the annual report of the chief engineer, make recommendations as to the needs of the department.
- Article 8. Every engineer shall cause any fire deemed by him to be dangerous, in any street or elsewhere to be extinguished or removed.

Superintendent of Fire Alarm.

Section 7. The fire alarm system shall be under the control of the chief engineer, with direct supervision by a superintendent of fire alarm, who shall be elected by the Council.

Committee on Fire Department.

- Section 8. Article 1. They shall direct all repairs of the houses, fire alarm system, and fire apparatus.
- Article 2. They in conjunction with the board of engineers shall hold meetings on the last Wednesday of each month.

Adopted December 5 and 19, 1910.

Amended May 20, 1918.

- 1. That the salary of the chief engineer be \$150 a year and 75 cents per hour for actual service at fires. It is understood under this arrangement that he shall not put in any time except for fires.
- 2. That the number of assistant engineers shall be two, and that the salaries of each shall be \$50 per year and 75 cents per hour for actual service at fires. Also that two alternates from the regular force be appointed by the chief engineer on January 1, to serve in absence of assistant engineer at a proportionate salary.
- 3. That the clerk of the Board of Engineers shall receive a salary of \$15 per year for his services.
- 4. That the members of the various companies shall each receive a salary of \$25 per year and 50 cents per hour for all services.

5. That the Superintendent of Fire Alarm shall attend

to all repairs on the fire alarm system.

Under this head it is understood that he shall at all times keep the line clear of trees and branches and other sostructions and shall not receive extra pay except for me mual labor; that he shall attend to the winding of all docks and see that the house man at the Central Fire tation takes proper care of the storage batteries and switch hoard; and he shall see to the procuring of supplies for the thole system through the purchasing agent, with the approval of the chief engineer and fire department committee.

Balance to City Treasurer	\$1,040	10

EDWARD L. WELCH Clerk.

REPORT OF PROBATION OFFICER.

To the Honorable Mayor and City Council of the City of Franklin:

During the year 1924 four cases were brought before the Juvenile court, these being cases of breaking and entering and larceny. Two offenders were sentenced by the court to the Industrial School, the others placed on probation.

Cases reported to your officer which were investigated and settled out of court:

Delinquency	9
Larceny	1
Disorderly Conduct	2

The year closes with two youthful offenders from this jurisdiction awaiting trial at the Industrial School and one on probation here.

Respectfully submitted,

WILTON E. CROSS,

Probation Officer.

BOARD OF HEALTH.

The Board of Health respectfully sumbits the following report for 1924

One case of scarlet fever. Four cases of infantile paralysis. Two deaths from tuberculosis. Total number of deaths during entire year was 84.

The number of bodies brought here from other places

for which burial permits were issued was 41.

Everything possible has been done to insure a clean and healthy city. The clerical duties of this board have been promptly and efficiently attended to.

In concluding this report we wish to extend our thanks to the Honorable Mayor and Councilmen for

the hearty support given us.

versus in 1975

Signed:

W. E. SMITH, M. D., IRVING V. GOSS, HECTOR MORIN.

ODELL MEMORIAL ARCH FUND.

Vote passed April 7, 1913.

That, the City of Franklin hereby accepts the sum of two thousand dollars given to said city, March 3, 1913, by Mrs. Herman J. Odell, same to be known as the "Odell Memorial Arch Fund," and said city hereby contracts and agrees with the said Mrs. Herman J. Odell, her heirs and assigns, to pay four percent interest annually on said sum, said interest to be expended by duly authorized agents of said city for the following purposes only, to wit:

First. For the care and repair of the Odell Memorial Arch.

Second. For the lighting of said arch.

Third. Balance for the care of the Odell Park. It is further voted that a copy of this vote of acceptance and contract shall be printed annually in the city reports.

Approved.

W. W. EDWARDS, Mayor.

L. H. DOUPHINETT, A. LAGACE, ALEXANDER B. HEBERT, Finance Committee.

CITY SOLICITOR'S REPORT.

The city has had no suits in court during the year and there are no claims against the city pending, about which there is any controversy so far as I am advised.

EDWARD G. LEACH, Solicitor.

CEMETERY TRUST FUNDS.

The following funds have been placed in the care of the Trustees of Trust Funds for the City of Franklin in trust, the income to be expended in the care of various lots in cemeteries within the city agreeable to Chapter 51 of the Public Statutes, and a resolution of the city council adopted September 3, 1900:

MARY J. COLBY FUND

In the year of our Lord one thousand nine hundred and thirteen.

A resolution relating to the Mary J. Colby Fund.

Resolved by the City Council of the City of Franklin as follows:

Whereas, By the terms of the will of the late Mary J. Colby, the sum of ten thousand dollars has been given to the City of Franklin, N. H., in trust, the income to be used annually for the support of the poor of said city, and the

principal to be known as the Mary J. Colby Fund:

Be it Resolved, That the City of Franklin, N. H. in accepting said trust fund hereby votes that same shall be deposited by the Treasurer of said city as follows, to wit: That the sum of five thousand dollars shall be deposited to the credit of the City of Franklin, in the Franklin Savings Bank of Franklin, N. H., *(and the sum of twenty five hundred dollars shall be deposited to the credit of the City of Franklin in each of the following named banks to wit: New Hampshire Savings Bank and Merrimack County Savings Bank, both of Concord, N. H.), to be known as the Mary I. Colby Fund, and that the annual interest or dividends paid by said banks on said deposits shall be expended for the benefit of the poor of Franklin, N. H., by an agent who shall be elected by the City Council of said city of Franklin, for a term of one year, and that said agent shall annually make a return to said city of the names of the persons assisted and the amounts to each, but that said names shall not be included in the list of paupers, or published.

Approved, W. W. EDWARDS, Mayor.

Passed September 8, 1913.

*Enclosed clause repealed February 6, 1922.

That part of the above resolution relating to "an agent who shall be elected by the City Council" was repealed September 13, 1915, and trustees appointed under provisions of Chapter 162, laws of 1915.

February 6, 1922. Amended by authorizing the Trustees of Trust Funds to withdraw said money and invest same

in the Bonds of the City of Franklin.

A. M. HANCOCK, Treasurer.

FRANKLIN PUBLIC LIBRARY.

To the Mayor and Members of the City Council:

The reports of the Treasurer and Librarian of our Pub-

lic Library deserve your careful attention.

The appreciation of the advantages of a public library by our citizens is being continually and increasingly exemplified by the growing use the institution is being put to. The Librarian's report fully proves this showing in detail the work the librarian has done in the past year. It is hardly believable now that only a few years ago there was considerable opposition to the establishment of an institution like this in our community.

I dare say there is no city appropriation made which is more effectually spent than the sum allowed for the sup-

port of our public library.

As shown by the Treasurer's report the city does not provide sufficient money to meet the needs of maintenance. Money from other sources has had to provide for additional equipment of books. A city of this size where money is so liberally appropriated for other things ought at least to supply sufficient funds to meet all the costs of running the library so that the other income could be used for enlarging the sphere of the institution's work.

Not less than \$5,000 yearly ought to be appropriated for this purpose and I trust the City Council will make it possible for the Public Library to have that sum in consideration of the good work the library is doing for so many of

our citizens.

Respectfully yours,

W. F. DUFFY, Chairman,

Board of Trustees.

LIBRARIAN'S REPORT.

To the Trustees of the Franklin Public Library:

The year 1924 has seen a record circulation, 55,958 volumes and periodicals being sent out during that time. The year 1915, our previous record, did not approach this

by 4,118 volumes.

On February 28, the seventeenth anniversary of the opening of the library, the new plan of a 66 hour week was begun, the building being open from 10 A. M. to 9 P. M. on week days. This brought about an increased use of books by adults, who were glad to include the library in their list of morning errands.

During the spring months three reading rooms and the delivery room were re-decorated, greatly adding to the

appearance of the building.

The Board of Trustees has lost the faithful services of Principal H. P. Swett, who has removed from town, and Mr. A. Murray Hancock fills his place as treasurer.

We have received a valuable gift of music from Mr. Walter A. Hancock, and the collection is being catalogued at the present time. It will add greatly to the value of the library, and will be appreciated by students of music.

Re-registration is being carried on, the third since the opening of the library. This is being done entirely by the library staff, and without inconvenience to the borrowers. We hope, in this way, to know the exact number of card holders, and their correct addresses for the use of postal

employees.

The total expense for books and maintenance comes much below what is considered a necessary amount for running a public library, supported largely by taxation. According to library statistics, one tenth of the school appropriation is required for the adequate support of the town library, where that library supplies the reference books for the use of the pupils, as it does in Franklin. The added availability of the books should be taken into consideration. School reference books are in use only 1.080 hours during the year, and then only to pupils; library reference books are useful to all ages for 3,432 hours in the year.

Taken on a basis of \$1.00 per capita of a town, the appropriation should be \$6,318.00, and \$1.00 per capita is a very small sum to spend for the education and pleasure of

an entire town.

Of the 1.115 books added during 1924, 20 per cent were non-fiction, a proof that there is still an urgent demand for better books. Double the number of books would not supply this demand; there is scarcely a book in the Children's Room but needs replacing.

The "Literary Map of New Hampshire," drawn and made at the library, has met with a ready sale, and orders have been received literally from Carolina to California. Nearly fifty dollars have been received, and the money expended

in a filing case for our picture collection.

Following is the record of circulation and other statistics necessary for an understanding of the work accomplished at the Public Library.

Statistics for the Year 1924.

Number of volumes accessioned at the beginning of 1925	15,184 976 116 4 19
Total added Number of newspapers currently received Number of magazines currently received Number of volumes of non-fiction lent, adult Number of volumes of non-fiction lent, juvenile	1,115 6 46 4,321 4,434
Number of volumes of non-fiction lent, total Number of volumes of fiction lent, adult Number of volumes of fiction lent, juvenile	8,755 35,915 9,511
Number of volumes of fiction lent, total Unbound magazines lent	45,426 1,777 55,958

The new registration of borrowers, started in October, makes it impossible to correctly estimate the number of new borrowers added during the year, or the number of active borrowers during the year.

Respectfully submitted,

RATES.

All customers are supplied through meters. The minimum charge is seven dollars and fifty cents per year, which entitles the consumer to 2,000 cubic feet during the year. Rentals are collected quarterly. For the first 1,000 feet or less in each quarter the charge is $37\frac{1}{2}$ cents per 100 feet; for the excess over 1,000 feet used each quarter 25 cents per 100 feet is charged. Upon all quarterly bills exceeding \$12.50 a discount of 25 per cent of the excess over \$12.50 is made.

No charge is made for private hydrants or for auto-

matic sprinkler service.

HARRY F. DAVIS, EDMUND J. GARNEAU, DAVID T. ATWOOD, JASON KIDDER, IRVING V. GOSS GEORGE D. MOWE.

Treasurer.

BOARD OF EDUCATION.

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the Board of Education:-

I herewith submit my third annual report as superintendent of Franklin schools, which is the twenty-fourth in

the series of similar reports.

While this report is addressed to you as the Board of Education, it is customary to make use of it as the one means we have, of officially informing all the citizens concerning their schools. It therefore will contain many facts well known to you, but not to the public generally.

Last year's report called your attention especially to the organization of the new junior high school. At that time, neither rooms nor equipment for the practical arts courses had been completed. At the present time, the kitchen and dining rooms, for Domestic Arts use, have been finished, but not yet fully equipped. I doubt if two pleasanter Domestic Arts rooms can be found in any school in the state. A sewing room remains to be finished and all these rooms properly equipped; then we shall have a suite of Domestic Arts rooms second to none.

The work of the Domestic Arts department at the beginning of the year, in the seventh and eighth grades, was canning of fruits and vegetables. Tomatoes, peas, peaches, apples, plums, corn, beets, and carrots were canned for both the home and the school. The eighth grade also learned jam and jelly making. After the canning season, these grades studied plain cooking and preparing of the day's meals. In the second nine weeks, both grades worked upon sew-

ing, making, in most cases, garments for individual use.

The ninth grade has studied Household Appliances, making visits to heating plants and other places to observe things studied in the class room.

In the high school, the studies have been Household Organization and Household Management. The Domestic

Arts course is a decidedly practical course.

The rooms for the Mechanic Arts courses are now reasonably well provided with equipment, though not adequately so. The instructors are making excellent use of what equipment they have, and additional equipment is being secured as finances permit. The boys in this department have constructed the rooms for their use in woodworking and machine shop practice. New machines have been added this year for the machine shop, and in getting them ready for use the boys have learned to set up machines and hang and line shafting. They have made tables, cupboards, poultry feeders, tabourets, foot stools, bread boards and various like projects to take back into their homes.

In wood turning they have made candlesticks, mallets,

chairs, spindles, chisel handles, etc.

We have in this department for instructors two competent men interested in their work and the boys who come to them.

These two departments, then, the Domestic and Manual Arts—have this year been made ready for the real work of the school and these rooms certainly are busy places

each day.

While the so-called "barn" is being utilized in part for school work—Domestic Arts, Mechanic Arts, Gymnasium and Assembly Hall—there are many things to be done to it before it approximately approaches its possibilities as a valuable asset of the school plant. Among the big things of the future that could be done and should be done, is to build an addition on the East side of the barn, enlarging the basement, now used for Mechanic Arts work, and providing on the floor above more room for spectators at the school functions and other public gatherings that should be encouraged to meet there as a community center. This room with a gallery constructed above it, would afford ample room for spectators, so that all our basketball games could be played there, instead of in the opera house, as

now. It would make a better place for the games, than the opera house, as it would afford more clear floor space for the playing, and hence safer for the players, and the shower baths already installed could be made use of after practice and regular games.

The stage in the gymnasium should be rebuilt and raised about 18 inches, thus affording a better view of things staged there. At the present, the audience, seated upon a level floor, has difficulty in seeing things the stage is so low.

A room now being used for a sewing room, but unfit for such a use aside from location, should be remodeled and made a suitable sewing room for the Domestic Arts girls—the third room of the Domestic Arts suite—the kitchen and dining room already having been completed before mentioned. Somewhere here, room for accommodating the more than a hundred, who "bring their dinner," should be provided for proper dining conditions.

A blacksmith shop and forge room should be constructed in the basement from the room formerly used as a hen house.

In the upper part of the barn—the hay loft—is a space nearly as large as the gymnasium. I see here opportunities for several rooms to be made use of by the various clubs organized for extra curriculum activities: a developing room for the Camera Club; a finishing room for the Art Club, a room for the Radio Club, etc.; a room for a printing equipment, a very valuable adjunct for any school system; or the entire space might be made into an assembly hall. When these things are done, the available space of the barn will have been put to splendid educational use.

During the year past, it has been at considerable expense that much extra construction work has been done around the buildings and about the grounds; some of it has been necessary for the efficient work of the school, and some, for the proper upkeep of the property. For two years at least, considerable of such kind of expense will be required. The work here, together with the general repairing to be done on all our school buildings, would warrant employing a school carpenter as a matter of economy. Such a man could take care of all this building, remodeling and repairing on a fixed salary. Not all his time would be

required, but it would be at our command and for our use whenever needed.

Among other good things done this year the Kindergarten has at last found its place in the Hancock building.

I am sure this pleases all concerned. Education Week was made use of interestingly and profitably. Every day, and nearly every night of that week was utilized to the advantage of both pupil and public. We are under great obligation to the business and professional men and women of the city, who contributed so much to the successful observance of the week by their

practical and helpful talks to the pupils.

The social activities in all our schools have been made a prominent feature of school work. From the dramatization of the "Three Bears" to the "Senior Play" and Debating League is a long stride. But each and all of them, together with the formation of the various clubs appealing to the different inclinations of the child; the student participation in school government; the contributing to the columns of the local paper and the editing and managing of the school magazine; all these, tend to develop a higher sense of responsibility that must later show itself in a more responsible and dependable citizenship.

I am heartily in sympathy with the social activities of our schools and commend the teachers for their organization of these particularly valuable features of school life.

High School.

With the organization of the junior high school, the special work of the last year, there logically developed the necessity of reorganization of the high school, that there might be proper coordination between the curricula of the two schools. Such reorganization has been the special work this year of the high school administration. exceedingly anxious that all the citizens, especially those having children in the schools, should carefully read Headmaster Keller's report, which is published in full, that you may be better informed as to the work, plans and purposes of the high school.

The junior high school in its first two years offers "try-out" courses. We know quite definitely now, by the time a boy or girl enters the 9th grade, whether they should attempt a language course, or select one that emphasizes the practical arts; whether they should be allowed to pursue a course in science with its difficult mathematics, or advised to take a course more suited to their aptitudes as shown by their work of two years. We try to start each individual in a line of study for which they seem best adapted. A mistake may of course be made and the 9th grade work plainly evidence it. In this case the present organization of the high school curriculum allows us to redirect the individual by explaining the character and purpose of different subjects and courses, and advising a course, which the previous experience of that individual has shown would be better suited to his ability and inclinations.

You will notice from Headmaster Keller's report that there is no longer permitted a haphazard choosing of

courses.

I believe that the smaller number of pupils than formerly, who have discontinued their school work, is the direct result of this change in selection of courses. The pupils had been helped to find themselves and their proper school place by consultation with, and cooperation of parents and teachers.

Notice, too, the large percent of our graduates of a year ago who have continued their education in higher institutions. A school, that creates in the individual a desire for higher education is accomplishing a large part of its real mission.

I recommend most highly the manner in which the extra curriculum activities of the high school are planned and directed. They show that they are purposeful and helpful toward the development of the pupil to better meet his civic and social duties.

It has been a recognized fact for some time past, that the English Course of the high school was not satisfactory in its results. Teachers have felt this, administrators have known it.

An attempt is being made this year to strengthen this course by reorganization and by injection of vitalizing elements.

At the present writing I feel sure that most excellent progress is being made under Mr. Eccles' instruction. He is giving unsparingly of his time and effort to build up a strong English department. I endorse the suggestion of a high school reference library not only to supplement the English work, but the Science and History as well.

An excellent Science Course has been inaugurated this year—a complete course in which science is the major subject. This course correlates with and continues the elementary science of the junior high, begun in the first year there, thus affording a six year science course. The work of this course was interrupted early in the year by the unfortunate illness of Mr. Chase, the instructor, who gave promise of being a splendid addition to our competent teaching force. We were fortunate in securing in his place Mr. Pierce, the present instructor, who had had long experience in science teaching.

The French department, though small in the number of pupils, is doing progressive work by an up to date method.

The Commercial department is producing graduates competent to do satisfactory work along commercial lines. It is a great satisfaction to know that our graduates of last year are filling local positions and doing it to the satisfaction of their employers. This department is doing, what we are aiming to have all departments do, fitting the pupils to meet the needs of the community.

I feel sure that after reading Headmaster Keller's report, you will be convinced that the Franklin High School is a real school, attempting to give its pupils a real educational foundation that will be helpful to the individual as a college student, or in his every day life as a good citizen.

Junior High School.

The Daniell Junior High School is now in the second year of its existence. It is as popular this year as last. A common expression heard from the students of this school is, "I like that school, it is some different from the old seventh and eighth grades." One of the reasons given for the organization of a junior high school was, that it would hold the pupils in school longer than the old seventh and eighth grade system would do. We have of course the data for one year only.

The total number enrolled for the school year 1923-4 in the seventh and eighth grades was 101. During the year,

and before the school opened in September 1924, twelve had moved away to other towns leaving a possible 89 to return. Of this number eighty-three are in school this year, six having gone to work, most of them from family necessity. The number held over from the eighth to the ninth grade which corresponds to the old plan first year high school, was surprisingly large, 96 percent.

The total enrollment in the ninth grade for 1923-24 was 93. Of these eleven moved from town, leaving a possible 82 to enter the high school tenth grade. Sixty-seven did enter, 15 going to work; a part from necessity, a part from failure to do satisfactory work to secure promotion. In the first case 93 percent returned to the school, in the latter case 82 percent advanced to the high school.

This I consider a good record, and, so far as the record of a single year is concerned, seems to substantiate the claim of the hold over power of the junior high school.

The enrollment in September 1924 exceeded our expectations, necessitating the purchase of additional seats and engaging of another teacher.

We are wondering if we have built too small.

I call your attention to principal Rowell's report as printed on another page.

Grade School.

In the development of the junior high school and the successful reorganization of the senior high school, the work of the grades is all important. Unless this foundation work is well done, the desired and proposed plans of these two schools cannot be satisfactorily realized. This fact has not been overlooked. The grade work is being strengthened and plans made to better correlate work of each grade with that of the next higher. The teachers seem to feel the generally awakened interest in the higher grades which has permeated to the lower. They are for the most part doing excellent work. The inability of pupils to read well, or to satisfactorily comprehend what they read, when they come to the fourth grade and thereafter where they are expected to interpret for themselves the language meaning of the content subjects like Geography and History, is recognized as existing in too many cases.

We are attempting to remedy this weakness by a system of silent reading to be intensively applied in the last half year of each grade. I am inclined to favor and recommend a change from the method now used for teaching primary reading, and try some newer system and check up results for a year. Unsatisfactory reading from too large a percent is, in my opinion, the weakest spot in our grade schools.

Summer School.

The Summer School was largely attended, 118 being enrolled. Not all of these were assigned for make-up work. Many came to review the fundamentals and keep fresh in mind the subject matter of their studies of the year, thus being better prepared to more easily carry the work of the new year.

Five teachers were employed for five weeks.

Evening School.

The Evening School is much smaller this year than usual a general condition throughout the state, because of the industrial depression at the time of opening the school in October. This condition has caused many of our usual attendants to leave town.

There has been an enrollment this year of 55. Of this number, only 8 are illiterates and obliged to attend. It is a pleasure and a source of great satisfaction to teach these knowledge-hungry men and women.

The Commercial class, as usual, is the largest, 20.

There has been a class of four studying in preparation for their second papers enabling them to become citizens.

The youngest member of the school is 14 years old, and the oldest is 37. The number over 21 years old is 17.

Teachers.

Our teaching force changes more or less every year. This year, of the 39 teachers, ten are new to Franklin. Of these ten, six are replacements and four, additional teachers.

Fourteen of our present teaching force attended summer school last summer. This is an excellent record and speaks well for the professional spirit of the teachers.

Athletics, Physical Instruction and Playground Activities.

The athletics of the school this year have been similar to those of last year.

The inter-school activities have consisted of baseball and basketball for the boys and basketball and hockey for the girls. The latter is the new sport entered upon this year.

In all these sports the physical instructor reports that "play fair" "exhibit true sportsmanship" has been the slogan and the principle underlying all the instruction. This true sportsmanship seems to prevail in all our contests and this

is as it should be.

The instructor says: "Franklin High School has made an enviable record in athletics during the past year, not only by winning games, but also by winning the confidence and friendship of the schools with which it has competed."

In the athletic contests we have been fairly successful,

perhaps as much so as we could expect.

Under the present organization of physical instruction every child from the first grade to the twelfth is taking part in required exercises unless excused for good reasons.

Athletic activities have too often in schools been confined to a few of the best athletes. Under the organization in our schools "Every student who is physically fit is selected as a member of some team in the different sports." This applies more particularly to the pupils of the junior and senior high schools. "In the spring of 1924 a baseball league, of ten teams made up from classes of these schools was successfully conducted which used over a hundred boys."

This winter we are conducting an eight team league in basketball for the boys, and a six team league for the girls.

I particularly commend this plan of the athletic instructor that has given opportunity to so large a percent of the student body to actively engage in athletics. I would like to see this opportunity more widely offered by the organization of track and field sports for both boys and girls. I would like to see a special teacher, competently trained, to have charge of both the physical and athletic training of our girls. If we are to have a "varsity girls team" representation of our school athletics, they should

receive, and are entitled to as much attention as our boys' "varsity team." Under the present arrangement this has not been done and cannot be done. The program that we have tried to carry out, in physical instruction and athletic training, has been too extensive a one for any one person to successfully and efficiently accomplish.

Physical instruction and athletic training for the boys and girls of school age is today generally recognized as one of the most important and essential functions of any

school.

We sometimes hear it said, "We cannot afford to put so much money into schools for physical training and athletics." I firmly believe we cannot afford not to put more into it. Franklin schools, with public spirited financial help from outside the school funds, have made an excellent beginning in this respect. Let no backward step be taken.

Summer Playground.

By the generosity of the City Council and manifested interest of many citizens \$1000 was appropriated for Summer Play Ground organization and equipment. Grounds at the Nesmith School and the Junior High School and on Edmunds Street were equipped and hundreds of children enjoyed them. No organized system of playground work was inaugurated, as Director Burnham had charge of the construction and installation of the equipment, locally made, and lacked time for proper organization and oversight of the work. I have no doubt another summer will see this equipment, and more, made use of under circumstances that will make it more purposeful as well as recreational.

Music.

The Supervisor of music Mrs. Watts, reports that a good idea of what is being done in the grades in music,

was shown at the June exhibition of the schools.

The junior high school at present is divided into four sections for singing, meeting one period per week. A class of twelve boys and girls are taking violin lessons of Mr. Claffey. From these it is hoped to get material for a good orchestra.

Mrs. Watts calls attention to the fact that some school systems provide instruction at the public expense upon some orchestral instrument for pupils desiring it, and also class instruction upon the piano. I wish we might do that here.

In the high school the Sophomores are receiving chorus work instruction and both Sophomores and Juniors have instruction in music appreciation. To the Seniors intending to enter Normal Schools, is given a course in subject matter of music. I need not say that our schools are fortunate in having an excellent musical supervisor.

Writing.

The improvement in the writing of our pupils, in all the grades, in the last three years has been a matter of great delight and satisfaction to me. It is the third year of the Houston system and Mrs. Welch reports that each year now plainly shows the result of the previous year's training. I have this year received letters from fifth, sixth, seventh and eighth grade pupils from different sections of our country requesting correspondence with our pupils of like grade concerning matters of local geography and history.

I have been interested in comparing the penmanship of these children with that of our own. In every case without exception, the comparison was unquestionably favor-

able to our local pupils.

I feel sure that three years from now, no graduate of our high school Commercial Course, trained in the local grades, will lose a position because of poor penmanship, as was the case in one instance last year.

Health.

Franklin schools have been very fortunate this past year and thus far this winter, in the small number of absentees from illness.

While several towns near us have been afflicted with epidemics of scarlet fever, measles and mumps, we have been practically free from any of these.

I feel that our physical instruction program has helped, at least, to keep our boys and girls more active, stronger,

and healthier, and thus better enabled them to ward off disease. The school nurse too, assisted by the room teachers, has carefully watched for any indications of illness and promptly acted in cases noted. Reading of the report of the school nurse printed elsewhere will indicate her various activities.

Gifts.

We acknowledge a gift from Rev. Wesley A. Paige of a very excellent glass cabinet with its contents of curios and valuable minerals collected by his father, the late Deacon Charles C. Paige. It is valued at about \$2000.

Miss Clara Rowell has donated two framed pictures.

Repairs.

The repairs made upon the school buildings and improvements about the grounds the past year have been

many.

At the Junior High School, river water has been connected for sprinkling and flushing purposes. This is not only a very convenient arrangement, but a great saving of the regular city water. A new sewer has been laid from the building to the river. The "barn" has been shingled entire, and the rooms for Mechanic Arts and Domestic

Arts finished, as we have said elsewhere.

The grounds about this building have been much improved by new grading, new seeding of lawns and trimming of trees. The flower gardens have been put in healthy condition: I mean by that, weeded, pruned, plants sorted and replanted, and a few new plants added. No attempt has been made to "lay out" the gardens. That should be the work of an expert gardener. It is now ready for such work, for after the growth of last summer, we know just the plants we have, and the varieties, and what we may need to buy. Through the effort and friendly cooperation and interest of many of the prominent ladies of the community and contributions from every social and fraternal organization of ladies in the city, as well as individual contributions, we had at our disposal \$71.74 to be used as a

Flower Fund; \$27.50 has been expended for plants leaving a balance of \$44.24 to be used for further improvements.

This property, situated as it is, should be made and kept one of the beauty spots of Franklin in which every citizen

would have pride.

The "main house" should be remodeled outwardly, removing piazzas, turrets, etc., and remodeling the roof to conform somewhat with the architecture of the new building.

The barn and house should then be painted. The grounds should be "laid out" and planned for development by a competent landscape gardener. Then if this work cannot all be done in one year, whatever is done can be done according to a definite plan until the whole is consummated.

At the High School, the recommendations of the expert examiner, authorized by the City Council, were fully complied with. New tie rods were placed through the building, and the brick work, wherever needing it, pointed and re-

laid.

The Science room has been remodeled, partly equipped and made convenient and roomy for doing the work re-

quired.

The ceiling of the Main Room, for some time a threatening menace, I was unwilling longer to be responsible for. During the Christmas vacation a new paneled wall board ceiling replaced the old plaster one.

This room is now used as a study and assembly room only. The old seats now there, of all kinds, sizes and description, should be replaced by new modern study chairs.

I hope this may be done this year.

The Nesmith School was thoroughly refinished during the summer and is in excellent condition.

The Morrison School will need painting this year.

Class Day.

The innovation of Class Day, observed for the first time in Franklin, Wednesday, June 11th by the class of 1924, was a success, and undoubtedly will become a permanent part of the exercises of graduation week. Not only the pupils, but the large crowd of citizens who witnessed it, fully enjoyed it.

Conclusion.

The year has been a distinctively progressive one educationally. The high school reorganization is perhaps the outstanding feature this year, as that of the junior high

was last year.

We have a good corps of teachers in both of these schools and I believe we have as good, practical, helpful, inspiring work being done as can be found anywhere in the state; work that is going to make itself felt in the life of the school itself, as well as in the lives of the boys and girls in their citizenship.

I wish to acknowledge the friendliness and hearty cooperation of all the teachers who have made it possible

for our schools to be progressive.

The big things that have been done educationally in Franklin in the last three years could not have been done, had not the School Board been citizens of broad vision and had not the citizens generally had confidence in that vision

and their wisdom.

I am sure you will approve, and it will not be amiss for me to mention the six years of faithful service on the Board given by Hon. William W. Edwards who recently refused to serve longer. His business experience, at the head of a large manufacturing concern, helped him to see things in a big way; and his decisions were made and suggestions given accordingly. Mr. Edwards retires from the Board with the good will and respect of all the teachers, members of the Board and all who have worked with him in school affairs for the past six years.

Respectfully submitted,

FRED S. LIBBEY,

Superintendent of Schools.

REPORT OF THE HEADMASTER OF THE SENIOR HIGH SCHOOL.

To the Superintendent of Schools:-

I herewith submit my second annual report covering the work of the high school. I trust its arrangement, its scope and its details will at least partially depict the present condition, program and policy of the school. Certain changes have taken place in the work. These may be understood best by comparing this report with that of last year. It is hoped that some progress may be discernible. The Headmaster and the teachers are ever conscious of the fact that their part, which is a definite one, is nevertheless only one of the contributing factors in the education of youth. What has been done and what is being done, are done in the hope that each individual is helped in the development of his or her best interests, purposes, and capacities—those that make for individual and social worth. The future and each pupil must determine whether he or she is a constructive citizen and member of the community, an efficient worker and producer, a possessor of the individualistic qualities that stamp a man or a woman as a success in personal life.

General Statement.

Comparatively few pupils have discontinued their school work during the past year. Several pupils who have been out of school one or more years have returned to continue their studies. Four members of the class of 1924 are pursuing postgraduate work in our regular classes. The Junior and the Sophomore classes are larger than those of last year. The enrollment this year shows an increase of 13 percent. These facts would indicate that the range of service of the school is being extended.

The school has revised its curricula. Complete and distinct curricula are now offered in Manual Training, Domestic Arts, Commercial work, College Preparatory work, and General Science. All these are so arranged that a pupil in six years, may complete a major and a secondary

line of work. The curricula so arranged and so administered afford a basis for educational and vocational guidance. This phase of the work of the school should be extended and vitalized.

The haphazard method of selecting curricula and courses has been replaced by a card system of election. In June each pupil was requested to select, with the written approval of the parent, the courses to be carried during the ensuing school year. This system made it possible for the teachers and the parents to give some guidance to this The whole undertaking was a deliberative matter. policy is not to prevent pupils process. The from engaging in certain work for which they may or may not be fitted, the policy is to inform the pupil concerning the work and in so far as possible to insure that selections are made with some purpose in view. The public school is frequently accused of trying to fit square pegs into round holes and vice versa. In order that the number of "misfits" may be reduced I desire that parents, administrators, and teachers give more pertinent consideration to the whole problem of educational and vocational guidance.

A school is correctly or incorrectly judged by the educational character of its graduates. Franklin High School in June placed its stamp of approval on 36 young men and women of this community. An analysis of the facts concerning the graduates of last year shows that of this number six began their University studies this past fall, six entered the Normal Schools of this state, two are in training for nursing, seven are continuing their studies in preparatory schools, three of the latter are enrolled in this school, ten are employed in some gainful occupation and five are at home. Three of those listed as employed are taking a regular or a night school course. From these statistics may be obtained the interesting fact that two out of every three or 66 2-3 percent of the class of 1924 are continuing their formal education in some institution. The class in this respect reflects credit upon itself and upon the school.

Social and Extra Curriculum Activities.

The extra curriculum activities have been made an integral part of the school life and program. Pupil participation is desired and encouraged. Pupils conduct morning assemblies for their classes and for the entire school. This and other activities have increased and developed both class and school spirit. Self-expression, the proper linking of life in the school with life out of the school and the utilization of the school as a means of training for civic life are essential factors of our present system of education. The social life of the school is

shaped to this end.

The home and the parents have not been neglected. Following a plan adopted in the fall of 1923, the parents of each class have given a party for the whole school. In February the Juniors' parents gave a Valentine Party, consisting of music, short plays, games, dancing and refreshments. In the spring the mothers of the Sophomores furnished refreshments and the class entertained the school with a mock graduation. Finally, before the close of school for the Christmas recess, the mothers of the Seniors served a school supper. This was accompanied by the school Christmas Tree, class and school songs and cheers, presentation of athletic letters, and other features which expressed the school and Christmas spirit. All these class parties have been sources of enjoyment to the pupils, and because of the wonderful cooperation of the parents, have forged a new and helpful bond between the parent and the teacher, the home and the school.

A faculty committee has initiated and organized two Literary Societies—The Websterian and the Clabrodian. These embrace all pupils and practically all pupil activities not expressly incorporated under the physical training program. Every pupil has elected two or more activities as: journalism, debating, social, music, current topics, scientific projects or dramatics. A successful school party has been conducted by the Clabrodian society which entertained its rival society, the Websterian. It was a time of new experiences and training in group activities, contests and games. The Websterian Society has published the first issue of the first school magazine in forty years—"The Sonorian."

The society has placed on the cover design these words—CULTURE—HONOR—LOYALTY. It is dedicated to the memory of Daniel Webster. From the dedicatory paragraph I take the following statement: "May his life ever be our guide in thought and expression. May our lives be dedicated to his noble interpretation of the ideal of service—service to our community, to our commonwealth and to our nation." The societies have already conducted an inter-society debate, brought into action a small orchestra and instituted a dancing class. It is hoped that a monthly program of literary and social value may be provided under pupil direction and participation.

English.

English is the most practical of all school subjects. It is the one that all must use, and should use correctly. Our pupils apparently have not been aware of this fact, they have maintained in many instances an attitude of mere toleration. Inaccuracies and the absence of standards in both oral and written discourse are receiving primary consideration. The literary treasures of the centuries must be made the common possession of all pupils. By securing and analyzing courses of study from within and without the state the tendencies in modern English teaching were carefully studied as a preliminary step in the organization of our own work. Community needs and college entrance requirements were also taken into consideration. courses (as organized) are merely an attempt to arrange the content matter so that the student will be assured of a correlated training; that the incoming members of the teaching force will have something more definite with which to begin; and that subsequent administrations may find herein material suggestions for the further construction of the courses. With this background and with the individuality of the teachers finding expression, this department is assured of constant improvement and success.

The class work has been vitalized. In the courses in literature indifference has been counteracted by appreciation. In composition courses the pupil has received stimulus along the line of his readiest personal response. The use of scales as motivating devices has proved partially

successful in written composition. Problems calculated to stimulate purposeful thinking and class discussion have been proposed daily. Formal debating has been introduced.

The department has successfully launched work in journalism. We are indebted to the editor of our local newspaper for his admirable interest and the column that has appeared in the Journal-Transcript. This column has been a means of acquainting our citizens with the privileges to be found in secondary education. In addition it has given to many a boy and girl the first memorable thrill at seeing his own creative expression before the reading public. During Educational Week business and professional men and women of the community addressed the pupils on matters of vocational and educational interest. The pupils not only received incalculable inspiration as a result, but they siezed upon every talk as being excellent material for a news story. These articles together with numerous interviews, obtained by pupils from leading citizens, appeared in the ensuing issues of the Journal-Transcript.

At the Annual State Teachers' Convention recently held at Manchester, Franklin High School was elected to membership in the Interscholastic Debeating League, sponsored by the University of New Hampshire. A triangular debate with Tilton and Laconia has been arranged. The department feels that a step ahead has been taken in this

regard.

Two other features that have aroused student enthusiasm have been the Electric Lighting Essay Contest and the Boston Traveler Short Story Contest. The former was the result of splendid prizes offered by Mr. Proctor of the local Light and Power Company.

The department requests the cooperation of the administration in carrying to a reasonable conclusion specific

projects which it stands ready to sponsor.

It points to the need of the organization and operation of a school library that may be utilized as a labratory in English and in other school courses. The school library would prove to be unusually valuable and helpful to class work as a complementary element. The public library would continue to be supplementary to both.

In the second place the English department urges the cooperation of all other departments in the critical super-

vision of language thought and expression in all classes. This is deemed essential to the establishment of proper

habits in the use of English.

The third project has to do with the proper coordination and integration of the English courses throughout the school system. The tenth, the eleventh and the twelfth grades are merely three of the twelve stages of development. The department urges that through round table discussions and conferences that aggregate norms and standards; effective aims, organization and methods adapted to the English work of this community, be formulated and submitted for approval to the various administrators of our school.

Mathematics.

The work of this department is in a progressive state of development. The drill work in the fundamental processes in arithmetic as recommended by the State Board of Education has been initiated by this department. The work in mathematics has been reorganized to complement the work of the Junior High School. The regular course in Plane Geometry is given in the tenth year. The laboratory method is used in that each demonstration is derived from the thought processes of the pupils rather than from the text book. Trigonometry is an elective course for Juniors. In the senior year a review of the ninth year Algebra and a continuation of the work through progressions enables the pupils to be prepared for college entrance requirements in this subject. Solid Geometry also is presented in this year. Special stress is given to the practical application of the mensuration of solids. The real value of mathematics is brought out in all courses and attempt is made to unify the work into a big connected whole. This unification is of utmost value to all pupils.

Latin.

There are at present only two classes in Latin in the Senior High School, the Sophomore class and a combined Junior and Senior class. During the past few years our courses in practical and scientific subjects have been growing in numbers. This fact seems to have prevented the

volume of elections in Latin from increasing in proportion to the growth of the school. In many cases this is as it should be. Not all pupils will find it profitable to pursue the subject beyond the tenth grade. However the recent classical investigation shows that there is throughout the country an added conviction on the part of educators of the value of Latin, and an increase in the number of pupils studying this subject. For those who are planning to pursue their studies beyond the high school Latin has no rival as a foundation study for other languages including English.

In Franklin, owing to the size of our classes in the school our courses are largely determined by state and college requirements, but we do find time for some of the modern features of the subject, such as Latin plays and Latin

cross-word puzzles.

Social Studies.

The work of this department has in subject matter and in arrangement of courses been revised. Modern history is now a regular tenth year subject, Economics and Business Law an eleventh year subject while Constitutional United States History is retained as the twelfth year social science

study.

The course in Modern History which is offered this year has been planned to enable the pupils to read with understanding the world news of the day. The World War has been taken as the central topic of the first part of our course. The Chinese War gives an opportunity for the study of China; the Holy Year for a study of the Church, while other current events are utilized in a similar way. In this way we supplement the History of civilization which is studied chronologically, by a review course studied from the point of view of the present—an outgrowth of the past.

The work in Economics and Business Practice, as outlined in the state program of studies, is primarily a course planned to acquaint the pupil with some of the practices and problems, which he will meet in the industrial world. It consists of the study of property and its transfer through deed, will, mortgage, or lease; money and banking; taxation and public expenditures; industry and its

organizations; problems of employer and employee; problems of agriculture and of transportation; and other subjects which have to do with business and industry. In addition to these practical problems we endeavor to present enough of the theory of Economics to enable the pupil to interpret logically current economic problems.

Our work in Constitutional History is planned to cover the specific outline of the state program of studies. In addition, the elements of sociology that apply directly to the formation and development of a stable form of government are treated. The work as a whole is vitalized by a study of current events. During the fall term, political parties and political methods occupied a large share of the time of the class. The class work is carried on in the form of unit or project assignments. Splendid interest on the part of the pupils is evinced in this course which is designed to furnish a setting for right civic action.

Modern Languages.

The only work in modern languages that the school is offering this year is a beginners' class and an advanced second year course in French. The subject is purely elective in all curricula except the College Preparatory. The direct method is employed in the teaching of the subject. This approach is approved by educators as being the most practical and the most helpful to the pupils. The work is progressive and promises good results.

Commercial.

The commercial work of the school is rapidly approaching an excellent state of achievement. Due to the reorganization of the schools, more advanced work is made possible. Most of the pupils that have enrolled in the courses show good aptitude and interest. A practical feature of this department is the opportunity that its members have in securing direct training in a business or a professional office of the city. Several of the pupils are now gainfully employed, while several of those who were graduated in this curriculum last year are unusually well placed in desirable positions.

Practical Science.

The work of this department has been reconstructed in several important respects. Biology, a new tenth year course, has been added to the already existing courses in physics and chemistry. These subjects now receive adequate attention in that one teacher gives his full time to the class room and laboratory work. The science rooms have been remodeled and in part refitted. When fully equipped they should prove to be more or less adapted to the work of these three courses. Additional equipment should be provided as soon as it can be utilized and properly cared for.

The department has become a real department and will undoubtedly prove a valuable asset to our school. Pupils are doing good individual work in all courses. The instruction which during the fall term was interrupted has now been fully stabilized. The biology course in my estimation is, for personal utilization, the most valuable of all the practical sciences. It enables one to understand himself and the environment which he must adapt to himself

or to which he must adapt himself.

Conclusion.

The work of special teachers, I believe will be covered in individual reports. The activities in music and in physical education have in both instances been enlarged and are

in all respects commendable.

I have attempted to show that the school possesses an aim and a purpose; that the teachers are consciously trying to build in the school the proper kind of social and educational atmosphere; and that we desire the fullest possible pupil participatiion to the end that our pupils may form right habits of civil and social action.

I do not believe it is untrue to say that the pupils and teachers have succeeded in making the class work, which after all is the essential thing, interesting, vital, and purposeful to an unusual degree. Subject matter found in books has been supplemented and the whole complemented with a synthesis of our best educational methods.

The teachers have faced and solved an unusual number of problems affecting class and school work. I appreciate their continued cooperation; their splendid suggestions for the improvement of the school, and their excellent professional attitude in all matters.

Our school, in so far as it is a credit to the community, has been made so by the splendid corps of teachers, by the active cooperation of parents and by the sympathetic supervision of the Superintendent of Schools.

Respectfully submitted,

ROY E. KELLER, Headmaster,

JUNIOR HIGH SCHOOL REPORT.

Superintendent F. S. Libbey:

I herewith submit my second annual report of the Daniell Junior High School:

The year 1924 found us at work under conditions which might be called ideal as compared with those under which we worked the previous year. We entered our new building in March where we found well equipped rooms, with adequate teaching force to care comfortably for our large enrollment of students.

In September we enrolled two hundred and thirty students and this number included pupils from many

surrounding towns.

This large number of students made it necessary to use every room in the new building and one room in the main house and increase our teaching force to thirteen teachers. Even now we can see ourselves outgrowing our new home.

There has been little change in our curricula and we are carrying out our daily work according to the schedule laid out by our State Department of Public Instruction in so far as it is possible with our present

equipment.

To many the unit courses that are required seem very difficult for pupils of Junior High school age, but our longer day has made supervised study possible and decreased the amount of outside aimless study.

In all our work we are endeavoring to keep it so practical that the students may acquire a foundation

upon which to build their professions.

We are attempting to direct the social side of the school life of our students. Realizing that the youth of today accepts, without question, whatever amusements are offered them, we feel it to be a very vital part of our work to offer them worth-while recreation.

With this in mind several clubs have been organized, varying in type sufficiently to allow each student an opportunity of finding a chance to exercise his or her special talent. Thus art, dramatics, nature, use of the camera, home-nursing, radio, sewing, bicycling and skiing, debating, and business projects have been given one period each week and much interest has been manifested.

Our outing club consists of the entire student-body and we plan for one school outing each term. Our first outing was a "weenie roast" on the school play grounds and over two hundred boys and girls entered wholeheartedly into making the evening a success.

Before Christmas the clubs gave a play and sale which netted us a goodly sum with which we shall start a school fund to be used to promote social activities, aid pupils, and help carry on many lines of

work which constantly present themselves.

The first period of each day we are using for a general assembly in the gymnasium. Each room in turn has charge of the morning devotional exercises adding whatever else the pupils of that room wish to do. We find our boys and girls competently preparing and giving programs worthy of very mature effort and talent. These morning hours mean much in making good family-spirit for our day aside from the more valuable results,—training to take their places as citizens with a poise that shall compel audience.

The Daniell Junior Echo has become a regular and important part of our school life. It is our purpose to publish one issue of the paper a term, having it a representative organ of the work of the students. Already it has proved a stimulus to better written English, an alertness to business management, and a freedom of

expression resulting from good thinking.

Through the efforts of Mrs. J. Estelle Watts, a violin class for beginners has been organized and Mr. Claffey

gives them lessons every week.

One of the most important organizations of any school is a school orchestra and we have made a small beginning in that direction. A thirteen piece orchestra consisting of violins, mandolins, ukeleles. saxophone, cornet and drums has been holding regular rehearsals for some time. One of our dreams is that in some way the school may own a bass viol, 'cello, cornet and clarinet that students may be given the privilege of learning to play some instrument that appeals to them.

The Student Executive Board and Traffic Squad are

in process of organization.

We had hoped to be able to serve school lunches to our large number of pupils who must remain during the lunch recess, but, although plans are being considered, no equipment has been installed as yet which can make

such a project possible.

We have many things for which we are very grateful and are very happy in our work; but our needs are legion. If the citizens could only realize that money spent for the welfare of boys and girls pays the largest interest of any investment I'm sure we might soon have our wonderful school plant put into ideal condition.

Our chief aim in our work is to give your boy and your girl, Citizens of Franklin, a "four-square" development that he or she may be mentally, morally, physically and socially fit for life in whatever community he or she

may live.

I am deeply grateful to the teachers without whose excellent spirit, hearty cooperation and efficient work the Daniell Junior High school could not have made

progress.

To the special teachers, I express sincere appreciation for their excellent work and willingness to cooperate

in every line of our work.

In behalf of the faculty and pupils I wish to thank the Board of Education and Superintendent Libbey for all they have contributed to the success of our year.

Respectfully submitted,

BESSIE C. ROWELL.

SCHOOL NURSE'S REPORT.

To the Superintendent of Schools:

Public Schools.

Defective breathing Orthopedic defects Other defects Pediculosis	18 6 6 2
Treatment Secured.	
Teeth	182
Tonsils	7
Adenoids	5
Breathing	4
Eyes	9
Orthopedic	1
Other defects	1

A glance at the above report will give one an idea of the work accomplished during the year, but it cannot give you the amount of time that has been given to it, the number of home visits, business visits, etc., that have to be made to get even this number of physical defects corrected.

The milk served in the schools last year brought about the usual gain in weight. This covered a period of thirteen weeks and a weekly average of 230 quarts of

milk was used.

Pediculosis

Mr. Burnham, assisted by the nurse, examined the children in the grades for flat feet and other orthopedic defects. Classes in medical gymnastics were formed under his supervision and much good resulted. A group of children was taken to an orthopedic clinic in May. Some of these had previously attended the clinic. There were four new cases and treatment has been secured for these.

Nine children who were referred by their family physician to a specialist received treatment for tonsils

and adenoids.

The usual physical examinations have been made and the pupils in the grades have been weighed at different periods during the year.

I take this opportunity to thank you, the teachers and any others who have helped in any way to carry on this

work.

ANNIE R. PROVOST, R. N.

SCHOLARSHIP FUNDS.

SANGER SCHOLARSHIP.

Resolved by the Board of Education of Franklin:

Whereas, Warren F. Daniell has by his written communication addressed to the Board of Education, expressed his intention of establishing a free scholarship for graduates of the Franklin High School in Simmons College in honor of his mother, and to be known as the "Sanger Scholarship," and agreeing to pay annually a sum sufficient to pay the costs of tuition for one student for four years in any of the courses described in the catalogue of the College, and

Whereas, a student to be awarded this scholarship must comply with the following regulations: First, she must have completed four years' satisfactory work at the Franklin High School; second, her parents must reside in Franklin.

Be it Resolved: That the Board of Education of the City of Franklin fully appreciate the spirit that prompted Mr. Daniell to establish this scholarship for the benefit of the young women of said city, thereby creating an additional incentive for higher educational advantages: and

Be it further Resolved: That said Board of Education willingly accepts said trust: and

Be it further Resolved: That a permanent Committee on Scholarship shall be established to consist of the Chairman of the Board of Education, the Superintendent of Schools and the Headmaster of the High School of said city, and

Be it further Resolved: That this resolution shall be printed annually in the school report of said Board.

FRANKLIN STUDENT AID FUND.

To the Mayor and Members of the City Council, Franklin, N. H.:

In June, 1921, I placed with Dartmouth College at Hanover, N. H., a fund of \$2,500.00—the income from which I wished to be used to assist under certain conditions students at that institution who were residents of this city.

It was found incompatible with the methods of disposing of the funds at Dartmouth College, to handle this fund under the conditions which I wished to impose—and for that reason I have transferred this sum from Dartmouth College to the City of Franklin.

I am attaching herewith the securities representing the fund together with a statement of the methods I wish followed in disposing of the income from the fund.

Respectfully yours,

WALTER F. DUFFY.

FRANKLIN STUDENT AID FUND.

Established by Walter F. Duffy, June, 1921.

A sum of \$2,500.00 is entrusted to the City of Franklin N. H., the income from which is to be used to assist worthy boys and girls residents of this city to secure a collegiate education or its equivalent.

The recipients of the income from this fund are to be selected by a board of three consisting of the Chairman of the Board of Education, Superintendent of Schools and Principal of the High School of the City of Franklin, N. H.

The income from this fund is to be disposed of under the following fixed conditions:—

9 1

I. Scholarship.

A student must attain such satisfactory standing in studies as to make it apparent to the authorities of the institution of learning where he attends, that it is advisable that the student pursue his studies and that he is on this account worthy of financial aid.

II. Financial Needs.

It is to be required that the students who receive benefit from this fund shall be obliged, through lack of family financial resources, to earn at least a substantial part of the money necessary to meet the expenses of their attendance upon their studies.

III. General Restrictions.

It is to be understood that in alloting the proceeds of the fund, preference is to be given to students at Dartmouth College, Hanover, N. H., who are residents of the City of Franklin, N. H. If no such students apply for the benefits of this fund, then the income can be used to assist any boys or girls who are residents of the City of Franklin, N. H., and who are pursuing a course of studies in any institution of learning giving a collegiate education or its equivalent, provided that the first two conditions covering the disposition of the benefits of this fund are fulfilled.

It is also to be understood that the income from this fund may be divided between two or more students, and that any students who receive financial aid from the institutions of learning where they attend are not thereby prevented from receiving aid from this fund.

If no students fulfilling the above requirements apply for the benefit of this fund the proceeds may be used as they accrue each year as seems best to the three persons mentioned above for the general educational good of the

citizens of Franklin, N. H.

DANIELL SCHOLARSHIP.

In the year of our Lord one thousand nine hundred and fourteen.

A resolution relating to the "Daniell Scholarship."

Resolved by the City Council of the City of Franklin, as follows:

Whereas, Jere R. Daniell of New London, Connecticut, on the second day of April, 1914, by his written communication of that date, addressed to the Mayor and Council of the City of Franklin, expressed his intention of establishing a free scholarship for graduates of the Franklin High School to the Massachusetts Institute of Technology, in memory of his father, the late Warren F. Daniell, and to be known as the "Daniell Scholarship," and together with his letter of the 16th of May, 1914, in which he agreed to give the sum of two hundred and fifty dollars each and every year, hereafter, beginning September 1st, 1914, to cover the costs of tuition for one student for four years in any one of the courses described in the catalogue of the Institute, and,

That a student to be awarded this scholarship, in whole or in part, must comply with the following named conditions:

First. He must have completed four years' satisfactory work at the Franklin High School.

Second. His parents or parent must reside in Franklin, and be unable without undue deprivation, to pay the tuition required themselves.

Third. He must show during his four years' work at the High School, marked ability in some one of the several subjects covered by the Institute courses.

In case several candidates present themselves in any one year, the scholarship will be awarded by competition in the entrance examinations for the Institute. The candidate entering with highest standing to receive the award. A holder of the scholarship will be expected to maintain the same standard of work at the Institute as that required of holders of regular Institute scholarships and the scholarship will be withdrawn in case the work is unsatisfactory.

The right is reserved to divide the amount of the scholarship among several applicants should such action seem desirable.

Be it resolved, That the City of Franklin fully appreciates the spirit that prompted Mr. Daniell to establish this scholarship for the benefit of the young men of said city, thereby creating an additional incentive for higher educational advantages in those who through misfortune or adversity would otherwise be prevented from obtaining the same; and

Be it further resolved, That said City willingly accepts said trust, and does hereby direct that the annual payment of the sum of two hundred and fifty dollars shall be made to the City Treasurer, who shall pay the annual tuition of said student or students upon the presentation of the bill for same by the Bureau of the Institute, and,

Be it further resolved, That a permanent Committee on Scholarship shall be established to consist of the chairman of the Board of Education, the Superintendent of Schools and the Principal of the High School of said City of Franklin, and

Be it further resolved, That this resolution shall annually be printed in the reports of said city.

Approved, W. W. EDWARDS, Mayor.

Passed June 1, 1914.

RESOLUTIONS.

In the year of our Lord one thousand nine hundred and twenty-four.

A resolution relating to the appointment of the Standing Committees of the City Council.

Passed July 7, 1924.

Approved,

L. H. DOUPHINETT, Mayor.

In the year of our Lord one thousand nine hundred and twenty-four.

A resolution relating to the death of City Treasurer, Mr. Frank Proctor.

Resolved by the City Council of the City of Franklin, as follows:

That in the death of City Treasurer, Mr. Frank Proctor, our city government has lost an able and honored public servant, and our citizenship an esteemed benefactor.

As City Treasurer Mr. Proctor was for many years of inestimable service. A man of unusually keen ability in

finance, and of untiring effort in the analysis of transactions, his judgment was relied upon with implicit faith. His years in public office were a constant indication of

> "the high, stern-featured beauty of plain devotedness to duty.'

As a member of the Park Commission, Mr. Proctor brought to his duties a true love of beauty and a rich knowledge of the early history of Odell Park, our principle place of recreation, about which hangs a glorious atmosphere of romance. In his report for the Commission as printed in the City Report for 1920, Mr. Proctor performed a real public service, in rescuing and preserving for future generations, something of that romance involving the noble but ill-fated Wabanaki.

As a citizen, Mr. Proctor displayed an active zeal for the well-being of the community and a ready response to all forms of charitable appeal. Although of a retiring disposition, still he was a man possessed of a fine civic vision. He will be remembered as the man who said, in regard to certain park projects presented to the Park Commission: "He who puts a playground where none was before is a public benefactor; he who puts a hillside park where was once a sidehill reservoir is adding a new glory to civic aesthetics."

The City Government desires to express its sorrow and its sympathy to the bereaved family, and to that end be it

further resolved.

That these resolutions be made a part of the permanent records of the City Government, and that same be printed in an early issue of the Journal-Transcript, and a copy sent to the bereaved family.

> JOSEPH W. SINCLAIR, HERBERT A. GRIFFIN, JAMES H. GERLACH,

ORDINANCES.

Relating to the Collection of Garbage.

In the year of our Lord, one thousand nine hundred and sixteen.

Be it ordained by the City Council of the City of Franklin as follows:

Section 1. The collection of garbage by the highway department of the city shall be made at the times and under the conditions herein set forth, and in no other manner.

Section 2. Weekly collections will be made each Saturday starting at seven a. m., at the Daniell bridge on Central street and continuing easterly to the Sanborn bridge, including Smith, Canal and Memorial streets, and Franklin street southerly from Central street to Ayles Court. Commencing at ten a. m., on each Saturday, collections will be made on Main street.

Section 3. That on the first Tuesday of each month, collections will be made on Willow Hill, Bow street, Glenwood avenue, River street, Terrace street and Ward one; on Wednesday following, collections will be made on Franklin street and all streets westerly to River street, and on Myrtle, Pleasant, Oak, Orchard, Pine and Beech streets, Highland and Elm avenues; and on Thursday, collections will be made on Prospect street and all streets between Prospect and Franklin streets.

Section 4. It shall be the duty of all persons residing within the limits hereinbefore set forth who desire to have garbage or refuse matter removed by the city to place same in suitable receptacles that can be handled by two men, carefully separating all papers, tins, bottles and other materials from ashes, and placing them in separate receptacles. No garbage or refuse of any kind shall be put into the highway unless placed in receptacles, and all re-

ceptacles shall be placed on the outer edge of the sidewalk, a reasonable period in advance of the time specified for collections.

Section 5. This ordinance shall take effect upon its passage.

Passed March 6, 1916.

Approved,

A. A. BEATON, Mayor.

Report of Committee on Street Lighting Relating to Poles and Wires of Telephone and Other Companies.

To the Mayor and City Council of Franklin:

The Committee on street Lighting to whom was referred the subject matter, relating to the wires and poles of telephone and other companies, having considered the same herewith file their report and recommend that the same be adopted, to wit:

- 1. That poles of every kind and description and all overhead wires of telephone or other companies on Central street, between the Daniell bridge, so-called, and the Sanborn bridge, so-called, shall be removed on or before July 1st, 1916, and that all wires between said points on Central street shall hereafter be placed under ground, in accordance with such rules and regulations as shall be prescribed by the highway committee of said Franklin, with adequate provision made for installing by the city of such wires in the future as may be necessary for municipal purposes.
- 2. That the regulations now in force in said city relative to the erection of square poles by telephone and other companies, as adopted by said city. May 13, 1901, be and the same are hereby revoked as of July 1st, 1916, and that telephone and other companies on and after July 1st, 1916, may erect round, straight and painted poles on any street in said Franklin, other than on Central street between

Daniell bridge so-called, and Sanborn bridge so-called, provided, such poles proposed to be erected and the location of the same, shall first meet with the written approval of the highway committee, said written approval to be filed with the City Clerk of said Franklin.

3. That the maintenance of United States mail boxes and fire alarm boxes are exempt from the provisions of

the regulations hereinbefore set forth.

4. That this report shall be printed annually in the City Reports.

Respectfully submitted,

JOSEPH M. LORDEN, ALVIN C. GILMAN, P, J. CUNNINGHAM,

Committee on Street Lighting.

Approved,

D. E. DAVIS, Mayor.

An Ordinance Relating to Unloading and Loading Vehicles Near the Underpass on South Main Street.

In the year of our Lord, one thousand nine hundred and twenty-three.

Be it ordained by the City Council of the City of Franklin, as follows:

Section 1. It shall be unlawful for the driver of any motor truck or other vehicle to stop and unload or reload any part of his load within the limits of the highway within fifty feet on either side of the underpass on South Main Street in this city.

Section 2. Any person violating this ordinance shall be

liable to a fine not exceeding ten dollars.

Passed May 7, 1923.

Approved,

L. H. DOUPHINETT, Mayor.

An Ordinance Relating to the Erection of Signs and Advertisements.

In the year of our Lord, one thousand nine hundred and twenty-four.

Be it ordained by the City Council of the City of Franklin, as follows:

Section 1. No person shall place, establish or maintain any sign or advertisement over any part of any street, lane, alley, or sidewalk, without first having obtained a permit therefor from the City Council and Chief Engineer of the Fire Department.

Section 2. Such sign or advertisement shall be safely and securely fixed and supported; shall not project over the sidewalk more than two (2) feet, and the owner shall assume all risks to the public caused by such signs.

Section 3. Persons applying for a permit to erect a sign or advertisement shall state its size and weight, the nature of the material of which it is to be constructed and the manner in which it is to be supported.

Section 4. Any person or corporation violating any of the provisions of this ordinance shall be liable to a fine

not exceeding twenty dollars.

Section 5. All ordinances or parts of ordinances inconsistent with this ordinance are hereby repealed, and this ordinance shall take effect upon its passage.

Passed April 7, 1924.

Approved,

L. H. DOUPHINETT, Mayor.

An Ordinance Relating to the Regulation of Street Traffic.

Be it ordained by the City Council of the City of Franklin, as follows:

ARTICLE I.

Definitions.

Section 1. The word "vehicle" herein shall include horses hitched to vehicles, horses ridden or led, motor

vehicles of all kinds, bicycles, and everything on wheels or runners excepting light carriages for the conveyance of children.

Section 2. The word "horse" herein shall include all domestic animals.

Section 3. The word "driver" herein shall include the rider, driver or leader of a horse, the rider of wheels and the operator of motor vehicles.

Section 4. The word "curb" herein shall mean the lateral boundaries of that portion of a street designated for the use of vehicles whether marked by curb stone or not so marked.

Section 5. The words "intersecting way" herein shall mean any way which joins another at an angle whether or not it crosses the other.

Section 6. The word "crossing" herein shall mean a way for pedestrians to go from one side of a street to the other which is marked by a pavement or otherwise; also points bordering the intersection of street not marked but which are commonly used to go from one side of a street to the other.

ARTICLE II.

Vehicles in Motion.

Section 1. A vehicle, except when passing a vehicle ahead, shall keep to the right and as near the right curb as possible.

Section 2. Vehicles meeting shall pass each other to

the right.

Section 3. A vehicle overtaking another vehicle shall, in passing, keep to the left, but it shall not leave the line on the right unless there is a clear way to advance on the left.

Section 4. A vehicle turning to the right into another street shall turn the corner as near to the curb as possible.

Section 5. A vehicle turning to the left into another street shall pass to the right of and beyond the center of the intersection of the street before turning.

Section 6. A vehicle crossing from one side of the street to the other shall do so by turning to the left so as to head in the same direction as the traffic on that side of the street.

Section 7. Slow moving vehicles shall keep as close as possible to the curb on the right so as to allow fast moving vehicles free passage on the left.

Section 8. No driver of a vehicle shall allow the same to come within ten feet of any vehicle in front of him

when approaching and passing over a crossing.

Section 9. The driver of any vehicle, before turning the corner of any street or turning out or starting from or stopping at the curb line of any street, shall first see that there is sufficient space free from other vehicles so that such turn, stop or start may be made safely, and shall then give a plainly visible or audible signal.

Section 10. Every bicycle operated during the period of one half hour after sunset to one half hour before

sunrise shall display one lighted lamp on the front.

ARTICLE. III.

Signals, Noises, Smoke and Traffic signs.

Section 1. Every driver of a vehicle shall, in slowing up, stopping, or backing, give a plainly visible or audible signal to show his intention.

Section 2. In turning while in motion or in starting to turn from a standstill, a signal shall be given by the driver of the vehicle about to be turned by raising a whip or hand indicating the direction in which the turn is to be made.

Section 3. The police department shall control all traffic in the streets or highways. Police officers may divert vehicular or pedestrian traffic when necessary to avoid congestion or to promote safety and convenience; and no person having charge of a vehicle shall refuse or neglect to stop or start or place the same as directed by a police officer.

Section 4. No person shall break, deface, or move any official sign, post sign, post or signal device placed in a

highway for direction of traffic.

ARTICLE VI.

Stopping, Standing and Turning.

Section 1. No vehicle shall stop so as to interfere with or prevent the passing of pedestrians at crossings, Section 2. On Central Street, between Memorial street

and Prospect street, motor vehicles must park at an angle of about forty-five degrees or in accordance with the markings on the surface of the highway. On Franklin street between Central street and School street and on Memorial street and Smith street and on Central street between Memorial street and Main street, motor vehicles shall park with both right wheels close to the curb. The City Marshal under the supervision of the highway committee may have lines drawn on the surface of the highway and have suitable signs erected for the direction of traffic.

Section 3. No vehicle shall stand within the intersection of a street nor within five feet of a fire hydrant nor

within ten feet of a street curb corner.

Section 4. Unless in an emergency, or to allow another vehicle to cross its path, no vehicle shall stop in any public

street except close to the curb line.

Section 5. When a horse drawn vehicle is backed up to the curb, the horse or horses shall be turned so as to stand as near parallel with the sidewalk as possible and headed in the general direction of traffic for the side of the street on which the vehicle is standing.

Section 6. No vehicle incapable of being turned without backing shall be turned about in any of the following streets; Central street between Prospect street and River street, Franklin street between Central street and School street, Main street between Depot street and Webster street and Smith and Memorial streets.

Section 7. No horse or vehicle shall be driven back or

allowed to stand on any sidewalk.

Section 8. No vehicle carrying passengers or merchandise for hire shall park on Central street between Memorial and Prospect street nor on Franklin street between Central street and Church street longer than necessary to discharge and take passengers or load or unload merchandise. The City Marshal may assign such vehicle parking stations for their exclusive use.

ARTICLE V. Right of Way.

Section 1. Police, Fire Department, United States Mail Vehicles, Ambulances, Funeral Processions and Emergency Repair Vehicles of Public Service Corporations shall have

the right of way in any street.

Section 2. A person driving or controlling a vehicle waiting at the curb shall promptly give place to a vehicle

about to take on or let off passengers.

Section 3. The driver of a vehicle, on approach of fire apparatus, shall immediately draw up said vehicle as near as practicable to the right hand curb and parallel thereto. and bring it to a stand still.

ARTICLE VI

Stealing Rides.

Section 1. No person shall steal a ride upon any vehicle and no person shall ride upon the rear of any vehicle without the consent of the person in charge thereof.

ARTICLE VII.

Penalties for Violation.

Section 1. Any person violating any of the provisions herein contained shall be liable to a penalty not to exceed ten dollars for first offense, or not to exceed twenty dollars for any subsequent offense.

Section 2. Complaints against any person violating any of the provisions herein contained may be made at police headquarters or to any police officer. Copies of this or-

dinance may be obtained at police headquarters.

Section 3. The City Marshal may suspend any of these rules at any time if in his judgment it is wise to do so for the safety and convenience of the public.

ARTICLE VIII.

Previous Ordinances Repealed.

Section 1. All ordinances inconsistent herewith are repealed, and this ordinance shall take effect on passage.

Passed July 7, 1924.

L. H. DOUPHINETT, Mayor. Approved,

Attest: IRVING V. GOSS, City Clerk.

ACCOUNTANT'S REPORT.

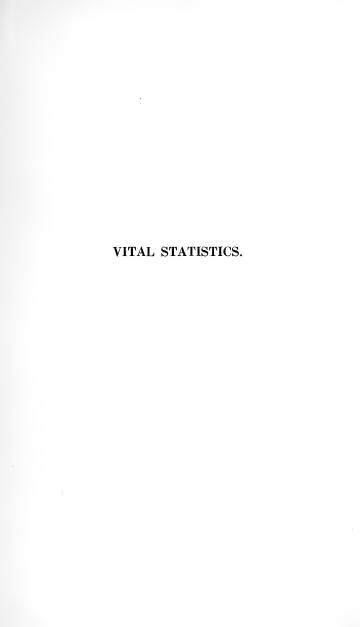

To the Mayor and Council of the City of Franklin:

I have carefully examined and verified the books and accounts of the City Clerk, Treasurer, Tax Collector, Board of Water Commissioners, Superintendent of Water Works, Board of Education, Overseer of the Poor, Park Commissioners, Trustees of Trust Funds for the City of Franklin, and Clerk of the Municipal Court, for the year 1924, and find the same correctly cast with proper vouchers corresponding to all expenditures, and all receipts properly accounted for and find the following balances to the credit of the City:

Statement.

Treasurer	\$11,509 25
Water Commissioners	5,916 16
Board of Education	271 51
Park Commission, cash in Savings Bank	3,919 69
Park Commission, Cash on Hand	126 67
Trustees of Trust Funds City of Frank	din.
Cemetery Trust Funds	30,751 00
Davison Bonds	2,000 00
Odell Memorial Memorial Arch Fund	2,000 00
Mary J. Colby, Ransom F. Evans and Frank	
H. Chapman Funds	15,000 00
Cash on Hand	307 36
Due on 1922 Tax List	82 36
Due on 1923 Tax List	757 42
Due on 1924 Tax List	15,854 67
Due from the State of New Hampshire	5,456 47

JOSEPH NEWTON, Auditor.

VITAL STATISTICS

eities, to furnish a transcript of the record of births, marriages and deaths to the municipal officers for publication in the annual report," I hereby submit the TO THE CITY COUNCIL OF THE CITY OF FRANKLIN: In compliance with an Act of the Legislature, passed June Session, 1887, requiring "clerks of towns and following:
